

Insurance Program Offered to Mechanical Contractors

MCA Canada is pleased to partner with the world's largest insurance broker, AON. AON is the leading global provider of Insurance services with offices all across Canada and 62,000 colleagues worldwide.

"Partnering with Aon makes sense. Their products and services provide much better coverage and being the largest insurance solutions, bonding broker and human benefits supplier in Canada made them an easy choice to recommend to our members."

Richard McKeagan, President and Chief Operating Officer

Insurance products that work for you

Aon's insurance program is designed exclusively for mechanical contractors, complete with dedicated coverage and enhancements designed for your business risks.

Lines of coverage include:

- General liability
- Automobile
- Umbrella liability
- Property
- Boiler and machinery
- Installation floater
- Builders' risk
- Crime
- Directors' & officers'
- Surety/Bonding

Aon's Benefits Plan is:

- Flexible enough to attract and retain employees
- Simple to administer
- Competitive and affordable over the long term

Most programs include general products and services. Under Aon's program, MCAC members will benefit from additional enhancements including:

- Dedicated insurance claims adjusting
- Contract reviews
- Bonding relations with all surety companies in Canada
- Public private partnerships or alternative financed projects expertise
- International support
- Group Health Benefits
- Key Man Insurance
- Critical Illness
- Travel Insurance

Aon offers all this and very competitive rates for all MCAC members.

"As the largest insurance broker in the world, Aon was able to provide a fully customized insurance program for our company with significantly broader coverage for a lot less money and Aon's relationship with my Bond Company will only help to enhance the support and service I get going forward. What more could we ask for?"

Dave Flamand, Partner, Peak Mechanical Partnership

Aon is Canada's leading insurance and bonding broker with over 140 dedicated construction experts across the country.
