

MESSAGE FROM THE PREMIER OF ALBERTA

On behalf of the Government of Alberta, it is my pleasure to join with the Canadian Institute for Plumbing and Heating and the Mechanical Contractors Association of Canada to recognize World Plumbing Day on March 11.

We don't often take time to think about the pipes that bring clean water into our homes and communities. This annual event is a great opportunity to celebrate the contributions of the plumbing industry. Canada's plumbing professionals are critical to public health, they support sustainability and they help protect the infrastructure we rely on every day. Their efforts are also moving us forward in water conservation and energy efficiency.

Thank you to all those who work hard every day to ensure we benefit from safe and efficient water systems. Please enjoy this day in your honour.

Best wishes for continued success.

Danielle Smith

Honourable Danielle Smith, Premier of Alberta
